**STATEMENT:**  
My name is George Rauscher. I have lived in Sutton Alaska since 1978. I have been a State House Representative for the past 6 years. I believe the State of Alaska's better days can still be ahead of us. I worry that we may never see that happen if we don't start to take a different approach to governing.

Capitalism and Entrepreneurship is what made this state great. As we drift closer to a greater reliance on government, we continue to fail our citizens and rob them of their ability to succeed in the free markets and its business opportunities. Government must get out of the way of the private sector if we are to nurture its proliferation to the benefit of our state's prosperity.

Alaska must work toward food security, better resource development, incentivize manufacturing, paving the way for family wage paying jobs. These are important to its future potential. We must continue to remove unneeded duplicity in government regulations, prevent government overreach and bureaucratic red tape which are all stifling industry investment.

We must work to reinstate election confidence, address pro-life issues, ensure parental rights in education, protect our 2nd amendment rights, provide fiscal restraint, and protect the PFD.

To accomplish these goals, we must work together in Juneau. Unlike the legislative leadership of the past 6 years, there should be no need for special sessions because our work was not completed in 90 or 120 days. It's time to take back the State House.
